# Introduction

As younger members move away from home to pursue post-secondary education, questions will arise as to how to access their credit union accounts in their new communities. Awareness of accessibility to credit union services through credit union surcharge-free ATMs close to colleges and universities is increasingly important to communicate. Credit union staff will need to be prepared to answer questions these students may ask about their ATM services as they begin life away from home.

Credit Union Central of Canada (Canadian Central) has developed an ATM Directory Reference Guide for Students to assist credit union staff in discussing the availability of surcharge-free ATMs on or near college and university campuses across Canada. This guide lists each college and university alphabetically by province and identifies credit union ATM availability on campus and those located within a five kilometer geographical radius. The ATM network service is also listed to help identify those ATMs that operate via the *ACCULINK*<sup>®</sup> network, *THE EXCHANGE*<sup>®</sup> network or both.

The data presented in this guide is for reference only, and is current as of September 2009. We encourage credit unions to send Canadian Central updates and/or credit union ATM location changes in order to keep this guide current or suggestions on how to improve the guide. Updates to this guide will be provided to credit unions on a regular basis.

Ultimately our goal is to ensure students are aware that they may continue to benefit from having access to their own credit union's services through the credit union network of surcharge-free ATMs during times when they are living away from their communities – a true sign of success!
